

rotate / scale / translate / getPageSize (0.9.4.20)

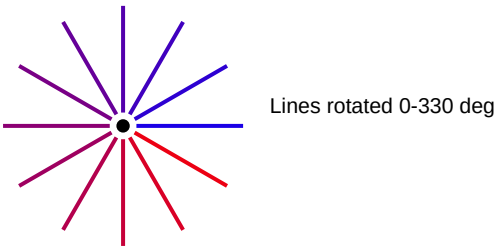

getPageSize

Points: 595.0 x 842.0 pt
mm: 209.9 x 297.0 mm
(A4 spec: 210.0 x 297.0 mm)

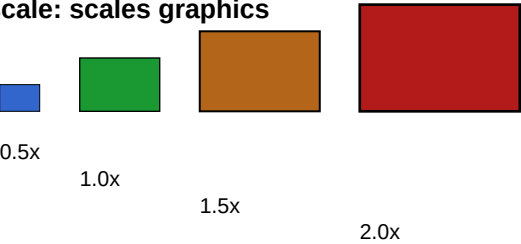

translate: moves the coordinate origin

rotate: rotates graphics around the current origin

scale: scales graphics

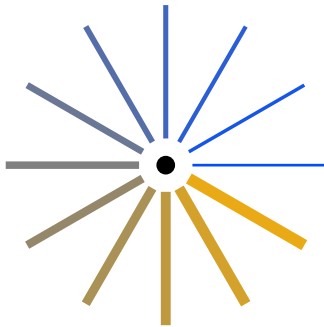

Combined + Important Note

Note: rotate/scale/translate affect graphics (line, rectangle, circle).

Text uses absolute positioning (Tm operator) and is NOT affected by cm transforms.

For rotated text: gsave / translate x y / rotate angle / text str -x 0 -y 0 / grestore

Combined: translate + rotate + line

12 lines: translate(cx,cy) + rotate(i*30) + line(10,0,60,0)

Combined: translate + scale + rectangle
